Верстальщик, Frontend Developer

Despre mine

I'm a front-end developer with experience in creating SPA using JavaScript, CSS, and HTML. Learning is my passion. I'm continuously improving my English and studying new technologies. Also, my strengths are great analytical skills, responsibility, and stress resistance. Ready for full-time employment.

HTML5, CSS/CSS3, Javascript/TypeScript, SVG, Git, jQuery, SCSS, CSS Framework Bootstrap, Pug

Experiența profesională

Frontend Developer · Helium10

Septembrie 2021 - Aprilie 2023 · 1 an 8 luni

Responsibilities and achievements:

Development and layout of new pages and articles, which contributed to the improvement of the user experience and led to an increase in the level of user engagement. Maintaining and modifying existing web pages using advanced technologies in web development.

Transferring code blocks to the React framework, which increased the performance and scalability of the project. Efficient support and administration of the website using the Wordpress platform.

Skills and competencies:

Knowledge of HTML5/CSS3/SCSS for creative and responsive design. JS/TS programming experience to improve web application functionality. Experience with Git version control system for project collaboration. Using the Bootstrap framework and the Webpack build tool to optimize and structure the code. UI development using React to create dynamic and scalable applications. Participation in the Scrum methodology to effectively organize the development and achieve the goals.

Additional Information:

Active participation in meetings and rallies with various teams and designers to jointly develop and improve the user interface. Assistance in the development of an extensive design system that contributes to the unification and improvement of the design of the company's web applications.
