UI/UX

Despre mine

I am a painter specializing in easel painting. I am also an experienced CG artist, as well as UI/UX, my eyes have been trained for years on composition, color, aesthetics, shapes, volumes, contrasts and simplification) In general, I have an idea of what is beautiful :)

For 4 years I worked as a freelancer, creating various projects for clients. My work included creating logos, brandbooks, UI/UX, illustrations and concept art for game development. I worked with various people and companies, which allowed me to expand my experience and skills in the field of design and CG art.

Currently, I work as a designer and artist at a game company, creating game art, UI elements, and screenshots. My experience in the game industry allows me to create unique and engaging content that will appeal to gamers.

I am ready to apply my experience and knowledge to create appealing art and design that will meet the needs and expectations of my employers.

Experience working with graphic programs such as Adobe Photoshop, Adobe Illustrator

Good command of color and composition

Skills in drawing perspective and lighting

Skills in working with text and fonts

Ability to adapt to different styles

Creative thinking and ability to come up with new ideas for creating unique illustrations and elements

Comfortable with a graphic tablet :)
